

Premiere Pro Caption Kit — Cheat Sheet

Vaporswift Media · free build · values for 1080×1920 vertical

The 3-click caption system

- 1. Transcribe — Window -> Text -> Transcribe Sequence (free, on-device).
- 2. Create Captions — from transcript. Short line length = 1–3 words/line.
- 3. Apply Track Style — pick your saved style; all captions update. Add scale-pop preset.

Build the style once in Essential Graphics -> Track Style dropdown -> "Create Style". It's then permanent and one-click on every project.

Style 1 — Bold Karaoke Highlight

Font	Montserrat ExtraBold / TheBoldFont — ALL CAPS
Size	115–130 px
Fill color	White #FFFFFF
Highlight color	Yellow #FFE000 or Green #36F000 (pick one accent)
Stroke / edge	Black #000000, 12–16 px
Shadow	Black, opacity 75%, angle 135°, distance 8, blur 12
Position	Centered; ~58–62% down; max width ~80%
Animation	Scale 92% -> 106% -> 100% over 6–8 frames

Style 2 — Clean Minimal White

Font	Inter SemiBold / Montserrat SemiBold — Sentence case
Size	72–85 px
Fill color	White #FFFFFF
Stroke	Off (or 2 px black on bright footage)
Shadow	Black, opacity 60%, distance 5, blur 14 (soft)
Background	Optional black pill @ 28% opacity, high corner radius
Position	Centered; ~80% down (lower third); 1–2 lines
Animation	Opacity 0->100% + rise 20px over 8 frames

Per-word karaoke (Premiere can't auto-do it): use the free word-by-word reveal (short captions + scale pop), a free CapCut round-trip, or build the After Effects karaoke .mogrt (Range Selector -> Based On: Words -> Fill Color).

Hook title cards (build as .mogrt)

Punch In	Anton/Bebas, 150–190px, scale 130->100% / 8f + fade in
Slide Stack	Montserrat ExtraBold, lines rise +60px, staggered 4f apart
Bar Reveal	Accent bar scales 0->100% (anchor left), text fades, bar exits

Mic cleanup chain (Essential Sound — tag as Dialogue)

- Reduce Noise ~4–6 · Reduce Rumble on · DeHum if buzzing
- EQ: Vocal Enhance / boost ~3–5 kHz · Dynamics ~5–7 (the "radio voice")
- Loudness: Auto-Match. Save as preset -> reuse on every clip.

Export — Reels / TikTok / Shorts

Format / Res	H.264 · 1080×1920 · frame rate = match source
Bitrate	VBR 2-pass · target 16 Mbps · max 24 Mbps
Audio	AAC 320 kbps, 48 kHz · normalize to -14 LUFS

Free fonts (= the "premium" pack fonts)

Montserrat · Poppins · Anton · Bebas Neue · Inter · Outfit · TheBoldFont — all free (Google Fonts / dafont).
Restart Premiere after install.

Avoid pirated pack mirrors (psdly, xtemplates, gfxplugin, intro-hd, freevideoeffect, gfxlife) — cracked motion-graphics files are a common malware vector. Build your own, or buy direct.
